Notes to Condensed Consolidated Interim Financial Statements

June 30, 2021 and 2020

(Unaudited and in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN ASSUMPTION

SRG Mining Inc. is a Canadian-based mineral exploration and development business with activities in Africa. The Company was incorporated on April 16, 1996 under the *Canada Business Corporations Act*. The Company's common shares are listed on the TSX Venture Exchange (the "TSX-V") under the trading symbol "SRG.V". The Company's principal office is located at #132 – 1320 Graham Blvd., Mont-Royal, Quebec, Canada, H3P 3C8.

These condensed consolidated interim financial statements were authorized for publication by the Board of Directors on August 25, 2021.

Based on the information available to date, the Company has not yet determined whether its mineral properties contain economically recoverable reserves.

The Company's mining properties are located in the Republic of Guinea ("Guinea"), Africa, and hence are subject to the risks normally associated with unanticipated changes in taxes and royalties, renegotiation of contracts, foreign currency fluctuations and political uncertainties.

Going concern uncertainty

These condensed consolidated interim financial statements have been prepared on a going concern basis, which presumes the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business for the foreseeable future. The use of these principles may not be appropriate. The Company is in its early stages, and as is common with similar companies, it raises financing for its exploration and evaluation activities. The Company has incurred a net loss and comprehensive loss for the period ended June 30, 2021 of \$1,301,956 (June 30, 2020 – \$2,482,192) and has an accumulated deficit of \$32,660,601 (December 31, 2020 – \$31,358,645). In addition, the Company had a negative working capital of \$2,116,575 as at June 30, 2021 (December 31, 2020 – negative \$1,601,112), including cash and cash equivalents of \$661,377 (December 31, 2020 – \$523,136). To date, the Company has financed its cash requirements primarily by issuing common shares, units or by borrowing money. The Company's ability to continue as a going concern is subject to its ability to raise additional financing or reduce its expenditure levels. The Company's discretionary activities do have some scope for flexibility in terms of the amount and timing of expenditures, and to a certain extent, expenditures may be adjusted accordingly. Based on the extent of the Company's current plan and anticipated spending, the Company will need to raise additional financing within the next 3-6 months to continue advancing the Lola Graphite Property.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period. Management has assessed its liquidity needs and estimates that these funds will not be sufficient to meet its obligations, budgeted expenditures, and commitments through June 30, 2022. Based on the extent of the Company's current stage and anticipated plan, it will need to raise additional financing, which cast significant doubt on its ability to continue as a going concern. While management has been successful in securing financing in the past, there can be no assurance it will be able to do so in the future, that such sources of funding will be available to the Company or that they will be available on terms acceptable to it.

If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in these consolidated financial statements. These condensed consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of presentation

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed consolidated

SRG Mining Inc.

Notes to Condensed Consolidated Interim Financial Statements

(Unaudited and in Canadian dollars)

interim financial statements should be read in conjunction with the Company's audited annual financial statements for the year ended December 31, 2020.

The preparation of condensed interim financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies.

The Company has consistently applied the same accounting policies throughout all the periods presented in these condensed consolidated interim financial statements.

(b) Basis of measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis using the accrual basis of accounting except for cash flow information.

(c) Basis of consolidation

In addition to the Company, the condensed consolidated interim financial statements include all subsidiaries. Subsidiaries are all companies over which the Company is able, directly or indirectly, to control financial and operating policies, which is the authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. Intercompany transactions and balances are eliminated upon consolidation. They are deconsolidated from the date that control by the Company ceases.

The subsidiaries of the Company, all of which are wholly owned, are as follows:

Subsidiaries	Jurisdiction of incorporation
Sama Resources Guinee SARL ("SRG Guinée")	Guinea
SRG Graphite International Inc. ("SRG Intl")	Cayman Islands
SRG Liberia Inc. ("SRG Liberia")	Liberia
SRG Lithium Inc. ("SRG Lithium")	Canada

3. EXPLORATION AND EVALUATION EXPENSES

The Company has one project currently under evaluation which is named Lola Graphite.

On August 10, 2018, the Government of Guinea awarded SRG Guinée, through ministerial order N°A2018/5349/MMG/SGG, the Lola Graphite research permit for a final two-year period, and, as per the legislation, the surface area was reduced to 94.38 square kilometers (from 187 square kilometers). This research permit has been cancelled on November 6, 2019 when the mining permit has been issued.

On November 6, 2019, the Government of Guinea awarded SRG Guinée, through presidential order N°D/2019/291/PRG/SGG awarded the mining permit for its Lola graphite project near the town of Lola in eastern Guinea, West Africa. The fifteen (15) year renewable permit was officially granted by the Government of Guinea through presidential decree number D/2019/291/PRG/SGG. The mining permit covers an area of 94.38 square kilometers. SRG Guinée has agreed to develop the mine and has an obligation to invest US\$110,000,000 during the first year of octroyal of the permit. In March 2021, Management has asked for a deferment to the government due to the ongoing Covid-19 crisis and is expecting the government to waive the clause.

On May 15, 2018, the Company filed for a new research permit for the Gogota property. The Company is waiting for the Government of Guinea to officially provide the research permit to the Company. The Gogota permit was initially part of the 187 square kilometers of the Lola Graphite permit.

Total lease liabilities at June 30, 2021	23,689
Current	23,689
Non-current	-

The difference between the total contractual undiscounted cash flows related to lease payments to lessors and the carrying amount of the lease liability is the amortization of the discount related to the lease liability.

6. LOAN PAYABLE

On June 18, 2019, the Company received a bridge loan of \$1,000,000 from Sama Resources Inc. ("SRI"), a related company, to fund the immediate cash requirements of the Company. The loan bears interest at 10% per annum. As at June 30, 2021 \$793,397 remains unpaid including an interest charge of \$93,397. The parties have agreed to extend the final maturity date for the repayment of the outstanding balance to December 31st, 2021 and if the Company completes a financing of at least \$3,000,000 before December 31st, 2021, the outstanding balance will become due immediately.

In response to COVID-19, the Company has received a \$60,000 emergency loan from the Canada Emergency Business Account ("CEBA"). The loan is interest-free until December 31, 2022, and if \$40,000 is reimbursed by said date, the Company will be entitled to a \$20,000 exemption as government grant.

SRG Mining Inc.

Notes to Condensed Consolidated Interim Financial Statements

June 30, 2021 and 2020

(Unaudited and in Canadian dollars)

Although the government grant of \$ 20,000 is not refundable if the Company repays the amount of \$ 40,000 by December 31, 2022, this amount will be recognized in income when the Company has reasonable assurance that it will comply with the terms of early repayment of this aid. As at June 30, 2021 the loan is measured at a fair value of \$49,205 and \$1,703 (\$3,295) in accreted interest has been recorded for the three and six-month periods ended June 30, 2021 respectively (2020 - \$nil).

7. CONVERTIBLE DEBENTURE

On January 26, 2021, SRG entered into a private placement in the form of a convertible debt financing for US\$7,500,000 with Sprott Private Resource Lending II (Collector), LP ("Sprott"). The first tranche ("First Tranche") of US\$800,000 was received on January 25, 2021 and includes a subscription for 109,900 common shares of the Company (the "Incentive Shares"). Incentive Shares have been issued at \$0.58 per share.

On April 6, 2021, Sprott has agreed to refinance the First Tranche and replace it with a new secured credit agreement for US\$1,600,000 (the "**USD\$1.6M Note**"). The USD\$1.6M Note, includes a refinancing and a replacement of the US\$800,000 First Tranche, as well as a fresh cash injection on the same terms which are for the totality of the amount; (i) an interest rate of 8% per annum, (ii) a term expiring on July 31, 2023, (iii) is convertible into common shares of the Company, at the discretion of Sprott, at a conversion price equal to \$0.69 per share and (iv) includes the issuance of 2,913,623 common share purchase warrants to Sprott exercisable for up to 2,913,623 common shares of the Company at \$0.69 per share until July 31, 2023.

On January 25, 2021 as part of the closing of the First Tranche, a payment \$400,000 have been made by Sprott to the monitor Raymond Chabot Inc. as a refundable deposit to secure the Company's bid to acquire NAL.

As of April 6, 2021, total payments of \$1,500,000 have been made to the monitor Raymond Chabot Inc. as a refundable deposit to secure the Company's bid to acquire NAL. Since the Company was unsuccessful in its bid to acquire NAL, on April 16, 2021, the monitor has returned \$1,400,000 (US\$1,117,629) refundable deposit to Sprott and \$100,000 to SRG and SRG is now in default with the terms of the US\$1.6M Note with Sprott. **The full amount outstanding including principal, implied interest, prepayment fee and expenses under the US\$1.6M Note is due immediately. 10. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern (Note 1) and to maintain a flexible capital structure, which will allow it to pursue its E&E activities and develop the mine.

The Company considers its capital structure to include shareholders' equity, debts and convertible debentures. The Company monitors its capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of the underlying assets and capital markets. In order to facilitate the management of capital and the exploration and evaluation of its E&E assets and develop the mine, the Company prepares annual expenditure budgets, which are monitored and updated as considered necessary.

To maintain or adjust the capital structure, the Company may issue new equity if available on favorable terms, issue more debts or convertible debenture instruments, sell off permits and enter into joint venture arrangements.

The Company is not subject to externally imposed capital requirements. There has been no change in the Company's approach to capital management during the period ended June 30, 2021.

The changes in the Company's capital are disclosed in the condensed consolidated interim statements of changes in shareholder's equity.

11. FINANCIAL INSTRUMENTS AND FINANCIAL RISK FACTORS

Classification

The Company's financial instruments as at June 30, 2021 and December 31, 2020 consist of cash and cash equivalents, receivable and other current assets, accounts payable and accrued liabilities, loans and convertible debenture.

The classification of financial instruments is summarized as follows:

	Carrying value as at June 30, 2021 \$	Carrying value as at December 31, 2020 \$
Financial assets at amortized costs		
Cash and cash equivalents	661,377	523,136
Receivables	1,351	2,078
Financial liabilities at amortized costs		
Accounts payables and accrued liabilities	1,681,491	1,429,298
Lease liability	23,689	44,698
Short-term loan	700,000	700,000
Long-term loan	49,205	45,910
Convertible debenture host	168,693	-
Interest payable	202,190	58,685

The Company's risk exposures and the impact of these exposures on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit concentration risk by holding cash and cash equivalents. This risk is minimized by holding cash and cash equivalents balances with large Canadian financial institutions and a minimal amount with local banks in Africa.

SRG Mining Inc.

Notes to Condensed Consolidated Interim Financial Statements

June 30, 2021 and 2020

(Unaudited and in Canadian dollars)

Liquidity risk

The Company manages its liquidity risk by using budgets that enable it to determine the amounts required to fund its E&E programs. The Company also ensures that it has sufficient working capital available to meet its day-to-day commitments.

As at June 30, 2021 the Company had cash and cash equivalents of \$661,377 to settle current liabilities of \$2,949,208.

As at June 30, 2021 management does not consider current funds to be sufficient for the Company to continue operating considering the intention to advance the Lola Graphite Property and to pursue other graphite projects in Liberia (Note 1). Any funding shortfall may be met in the future in a number of ways including, but not limited to, the issuance of new equity instruments, issuance of debts, issuance of convertible debentures, further expenditure reductions, or other measures.

Fair value

Fair value estimates are made at the consolidated statement of financial position date based on relevant market information and other information about financial instruments.

The Company's financial instruments as at June 30, 2021 consist of cash and cash equivalents, accounts payable and accrued liabilities, loans and convertible debenture. The Company's financial assets and financial liabilities approximate their fair values due to their relatively short periods to maturity.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in prevailing market interest rates.

Except for the fixed interest recognized on the convertible debenture and short-term loan, all of the Company's assets and liabilities are non-interest-bearing and, as such, are not subject to a significant amount of risk arising from fluctuations in interest rates.

Market risk

Foreign exchange risk

Currency risk is the risk that future cash flows or fair value of financial instruments will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign exchange ("FX") risk as cash is primarily held in Canadian dollars, while a significant portion of expenditures are denominated in US dollars and Guinean francs and, to a lesser extent, euros, Australian dollars and British pounds.

Commodity price risk

Commodity price risk is the risk that the fair value or expected future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for minerals are impacted by world economic events that dictate the levels of supply and demand as well as the relationship between the Canadian and other currencies, as outlined above. As the Company has not yet developed commercial mineral interests, the Company is not a party to financial instruments exposed to the price of commodities. However, the Company is indirectly exposed to commodity price risk, as it impacts the Company's access to capital and funding.

12. RELATED PARTIES

Related parties include the Company's key management personnel and related companies. Unless otherwise stated, balances are usually settled in cash.
